About Me

I am a passionate **Frontend Developer** with experience in building customized, responsive, and user-friendly web applications. While my main strength is frontend development, I also have hands-on experience with backend technologies and enjoy working across the full stack when needed. I love creating clean, intuitive interfaces and bringing ideas to life through code.

I'm always excited to learn new technologies, explore new frameworks, and challenge myself, especially in areas like mobile app development. With under three years of experience, I am committed to growing rapidly, improving my skills, and contributing more to the projects I'm involved in.

I work best in a stress-free, positive environment that values collaboration and creativity. Workload is never a problem for me. I genuinely enjoy what I do, and I'm motivated by the opportunity to build meaningful digital experiences. My goal is to continue pushing my career forward, take on new challenges, and become the best developer I can be.

EDUCATION

University of Mandalay - *Bachelor of Science*

Dec 2015 - Mar 2020

Majored in *Computer Science*

SKILLS

Frontend

- JavaScript, HTML, CSS, Tailwind CSS, Vuetify, Material UI
– *2+ years experience*

Frameworks / Libraries

- React.js, Next.js, Vue.js, Electron.js – *2 years experience*

Backend

- Java – *1+ years experience*

Tools

- Git & Github, AWS

Familiar With (No Professional Experience)

- Python, PHP, GO Lang

Basic Knowledge

- C#, C++, Arduino, COBOL, RPG, Lansa

EXPERIENCE

Digital Base - React Developer

Feb 01 2023 - Dec 31 2024 (1 yr 10 months)

Developed customized web applications using React.js, Next.js, Vue.js, and Electron.js as the frontend developer.

Web Application Projects

HR Administration System

- *Employee & department management*
- *Payroll processing and automation*
- *Announcement and event calendar module*

Online Book Shop (Version 1.0.0)

- *URL: panoramyanmar.com*
- *Fully responsive for both web and mobile*
- *Integrated cart and order handling system*

Learning Management System (LMS)

- *Dedicated Admin Portal for course, user, and content management*
- *Exam & Question Bank System with automated evaluation*
- *Certification Issuance System with dynamic template generation*
- *Feed / Media Posting System (photo & video uploads)*
- *Real-time Data Dashboards*
- *Notification System (alerts, updates, reminders)*

E-commerce Admin Portal

- *Batch processing features*
- *Excel export and reporting system*
- *Packaged desktop application using Electron.js*

I independently developed all listed web applications as the sole Frontend Web Developer, handling the complete UI/UX implementation, responsive design, integration logic, and frontend architecture.

Global Innovation Consulting inc - *IT programmer*

Jan 02 2025 - Feb 25 2026 (1 yr 2 months)

Developing Insurance client sites

Using Java, javascript and bootstrap

Japanese Insurance Websites (4+ real client projects)

- Participated in development of client websites.
- Performed unit testing, integration testing, and comprehensive testing.
- Gained a strong understanding of Japanese workflows and insurance systems.

Training Experience in Japan — GIC Japan (4-month AOTS Program)

I was selected to participate in a 4-month onsite training program in Japan as a trainee programmer under GIC Japan (Miyazaki). During this training, I gained hands-on experience with legacy technologies and modern development tools, as well as an in-depth understanding of Japanese work culture.

- Trained in legacy programming languages such as COBOL, RPG, and LANSA.
- Learned low-code development using GeneXus.
- Studied AWS cloud services, including core cloud concepts and foundational architecture.

-
- Completed courses on system modernization, understanding how legacy systems transition into modern architectures.
 - Experienced Japanese workplace culture, communication practices, and professional workflows.
 - Enhanced collaboration skills through real training activities with Japanese teams.

This training strengthened my technical foundation in both legacy and modern systems and improved my adaptability in international working environments.

Certification

- ★ **Japanese Language Proficiency Test (JLPT) – N5**
- ★ **Japanese Language Proficiency Test (JLPT) – N4**
- ★ **Japanese Language Proficiency Test (JLPT) – N3**
- ★ **Certificate in Business Studies (CBS) – University of Mandalay**
- ★ **Certificate in Advanced Business Studies (CABS) – University of Mandalay**
- ★ **Certificate of Completion – Internship Program (Digital Base IT Company)**
- ★ **Certificate of Specialized Technical Training – AOTS, Japan**
- ★ **Certificate in Fundamentals of Engineering (FE)**
